TERMS OF USE

The PDF files which constitute the online edition of this publication are subject to the following terms of use:

- (1) Only the copy of each file which is resident on the GCNA Website is sharable. That copy is subject to revision at any time without prior notice to anyone.
- (2) A visitor to the GCNA Website may download any of the available PDF files to that individual's personal computer via a Web browser solely for viewing and optionally for printing at most one copy of each page.
- (3) A file copy so downloaded may not be further reproduced or distributed in any manner, except as incidental to the course of regularly scheduled backups of the disk on which it temporarily resides. In particular, it may not be subject to file sharing over a network.
- (4) A print copy so made may not be further reproduced.

CONTENTS

The main purpose of this publication is to identify and describe all of the traditional carillons in the world. But it also covers electrified carillons, chimes, rings, zvons and other instruments or collections of 8 or more tower bells (even if not in a tower), and other significant tower bells.

The complete publication (online version) consists of, and the Terms of Use apply to, the following PDF files:

NOTE: Other bellfounders are known to be still in operation in Europe, but none of them are known to meet our criteria for listing here.

The bellfounders in this group have in the past produced tower bells for carillons, chimes and rings, but are not known to be in that business now, though a few of the firms are still active in maintenance work. Except for those few, only the general place and period of bellfounding work are given.
