 summer series 7pm Tue in July (guests)
 *Remarks:
 Entire tower from 1937 was replaced

in the 1953 enlargement; this was
 significantly remodelled in 1983.
 Original installation contained 18
 bells apparently by P. Hemony, 1674;
 16 (later 12) apparently by J.du Mery,
 1737; one apparently by A. van den
 Gheyn, 1784; reportedly all collected
 (and some returned) by O. Michaux,
 Louvain, Belgium; thus this was thought
 to be the only pre-19th century
 carillon in North America. However,
 investigations c.2003 confirmed old
 suspicions that the "Hemony" bells (at
 least) were forgeries made by Michaux
 (or Michiels) using plaster casts of
 bells which existed elsewhere. One
 original bell (broken) was replaced in
 the 1953 enlargement, and the two
 smallest originals ("DuMery") were
 replaced in the 1977 enlargement.
 Meeks, Watson & Co. replaced top 20
 in 2006; dedicated 10 June.
